

## Duo6 Sports

### Applications:

-  Civic & Public Sector
-  Sport & Leisure
-  Schools & Education

### Drawings:

Download our drawings direct from our website:  
[www.zaun.co.uk/about-us/downloads/drawings/](http://www.zaun.co.uk/about-us/downloads/drawings/)

### Features & Benefits:

- Reduces noise and rattle caused by ball impact with EPDM inserts and fixings every 200mm
- 50mm x 200mm open mesh increases visibility to ensure there are no hiding places for the safety of players
- Twin wire structure provides a rigid strong mesh panel that is low maintenance and provides no solid surface for vandals
- Continuous panel without mid-rails to injure players
- Supplied with standard or minimal projections at the top of the panel
- Available either bolt down, in ground or on wall
- Goal and basketball ends also available

### Description:

Zaun's **Duo6 Sports** fencing system has been designed and evolved from the Duo6 perimeter system. The **Duo6 Sports** solution is ideal for both light usage courts and for heavy use with MUGAs in urban settings.

One of the major stumbling blocks during the planning of sports courts is noise that occurs during play. Like Duo, **Duo6 Sports** is available using 6mm twin horizontal wires however Duo Sports has been developed to overcome the rattle that so many residents object to. **Duo6 Sports** uses twice as many fixings to mount the panels to the posts, ensuring that there is minimum movement between the two. Furthermore, each fixing uses a synthetic EPDM insert to insulate the panel from the post. Fixings every 200mm and synthetic rubber inserts at each fixing virtually eliminates rattle during play.

Panels can be cranked inwards to increase ball retention and the addition of Zaun football goals and basketball units will increase user participation. A clamp bar covering panel ends ensures a safe playing surface with no sharp edges.

## Details:

Minimum height of 630mm to maximum height of 6 metres – Duo6 Sports Fencing

### Mesh:

Duo6 mesh comprising 50mm x 200mm mesh with dual 6mm horizontal wires at 200mm centres and single 5mm vertical wires at 50mm centres

### Posts:

Various RHS post sizes dependent on height (see chart below for details), spaced at 2525mm centres

### Post to panel fixing:

Panels fixed to posts with full height 40mm x 5mm clamp bar with bolt fixings at 200mm centres with EPDM inserts. The full height clamp bars create a flush safe finish with the mesh ends behind the clamp bar.

### Gates:

Pedestrian gates are single leaf 1.2m wide, (or width to suit), framed in a 50mm x 50mm SHS with Zaun Duo8 mesh welded inside the frame, with slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

Vehicle access gates are double leaf (single leaf vehicle gates available) 3.0m wide (or width to suit), framed in 50mm x 50mm SHS, with Zaun Duo8 mesh welded inside the frame, with drop bolts and slide latch. Gate supplied with rubber bump stop and 2 x suitable gate posts.

### Finish:

Materials are galvanised and Polyester Powder coated.
